

IN THE CLAIMS:

The text of all pending claims, (including withdrawn claims) is set forth below. Cancelled and not entered claims are indicated with claim number and status only. The claims as listed below show added text with underlining and deleted text with ~~strikethrough~~. The status of each claim is indicated with one of (original), (currently amended), (cancelled), (withdrawn), (new), (previously presented), or (not entered).

Please CANCEL claims 32-62, ADD new claims 64-71 and AMEND the claims in accordance with the following:

1. (Currently Amended) A system for controlling financial transactions of an organization, comprising:
 - a financial management system providing control, by defining a management system limit, and accounting for financial transactions of multiple users within the organization; and
 - a money transaction card system associated with the financial management system and providing control, by controlling transactions responsive to a card system limit and the management system limit, and accounting for money card transactions within a general ledger of the financial management system.
- 2-26. (Cancelled)
27. (Original) A system as recited in claim 1, wherein the money card comprises a purchase card.
28. (Original) A system as recited in claim 1, wherein the money card comprises a debit card.
29. (Original) A system as recited in claim 1, wherein the money card comprises a prepaid card.
30. (Original) A system as recited in claim 1, wherein the money card comprises a credit card.
31. (Original) A system as recited in claim 1, wherein the money card comprises one of check, procurement, fleet, corporate, expenses, combination and travel card.

Claims 32-62. (Cancelled)

63. (Currently Amended) A system, comprising:

an organization financial management system controlling, by defining a management system limit, and accounting for organization financial transactions for multiple users within the organization; and

a money card transaction system associated with the organization financial management system and controlling transactions responsive to a card system limit and the management system limit, and accounting for money card transactions for a general ledger of the organization with-organization financial management system.

64. (New) A system as recited in claim 1, wherein the management system limit is separate from the card system limit.

65. (New) A system as recited in claim 64, wherein the management system limit includes one of single purchase limits, billing cycle limits, budget limits, organization account code limits, product type limits.

66. (New) A system as recited in claim 1, wherein said money card transaction system automatically reconciles the money card transactions within the general ledger of the financial management system.

67. (New) A system as recited in claim 66, wherein reconciliation searches for an obligation created in the financial management system prior to a transaction.

68. (New) A system as recited in claim 66, wherein reconciliation updates budget, planning, project and ledger entries within the general ledger of the financial management system.

69. (New) A system as recited in claim 1, wherein the management system limit is imposed by the organization financial management system.

70. (New) A system as recited in claim 1, wherein the card system limit is imposed by the money card transaction system.

71. (New) A system as recited in claim 1, wherein checking for obligations of the management system limit occurs before the money card transaction occurs.
